Summary

Professor Steven Kipper is used to the stares, the muttered insults. Monster. Disgusting. Gross. It's all he's ever known. Relationships suck when his date won't even go out in public with him, which is why he hasn't bothered. That is until her. The woman on the internet who gets his every quirk. He's hooked on a person he's never met. The way she gets his jokes, the uninhibited sexuality and...just talking to her. She's everything he's ever wanted, only she's a stranger. Unless he can convince her they should unplug and take their virtual relationship off-line.

Tamara Roh has heard all the insults from slut to whore and they bore her. She refuses to let other people define her. Life's tough in the gaming industry, and if she can't handle a few insults the haters will chew her up and spit her out. Her only haven is with her friends and in one very explicit chat room. On-line she can be anyone she wants to, even the normal girl-next-door who just happens to get off on dirty talk, erotic gifs and video chats from the neck down. She might not be able to trust guys in real life to see past the Hot Asian Girlfriend stereotype, but with her internet beau anonymity is her safety net. The only problem is...she's falling for a man who thinks she's someone else.
