Summary

LEARN THE ART OF BODY LANGUAGE AND NON-VERBAL COMMUNICATION SKILLS!!!

Did you know that you are likely to be lied to about 2-3 times in a short conversation of 10 minutes? It turns out that 91% of people lie many times throughout the day at work and at home. And you would be surprised that most people don't even have a clue that they are lied to. Why?

When we talk we say very little because it's our body that does the real talking! We express so much more subconsciously through our physical behavior, body posture, gestures, eye movement, facial expressions, touch and the use of space. So why not learn how to use this to your advantage? Or just take time to read about because it is very interesting. Successful people utilize their nonverbal cues to get what they want depending on the given circumstances. Understanding the body language comes easy to some, while others can't figure it out. Whether you're in the first or in the second group, with this book, you will not only learn how to understand non-verbal signals, you will master them. Loaded with practical tips, this book covers everything you ever need to know about body language, in a variety of business situations. The author covers everything from gestures and postures to personal and physical space.

You can learn to read the many forms of body language in people's hands, legs, eyes, and faces. This skill is especially useful if you're interested in dating.
