Summary

Guns are a black and white issue, right? Well, it's not quite that simple. This book covers every aspect of the gun debate in the U.S. from hunting to mass shootings to questions about Constitutional rights, no angle is left unexplored. Written mostly as the current debate about guns and gun control was heating up, you'll find well-written and thought out points here as well as introspection about the dangers inherent in an armed and, sometimes, unstable society. Questions about what the Second Amendment is really for and the seeming ubiquity of violence in society are juxtaposed against concrete concerns about self-protection, tradition, and the clash of cultures in a fantastically readable and engaging format that moves at a breathless pace. One of the only books that presents every side of the issue, this is a must-read for those even moderately interested in the topic.

All his life, Gabe Riley has heard about sightings of ghosts and swamp monsters at Blood Red Pond, but he knows the green, scaly creature that attacks Ray McPherson's old Buick one night isn't real. It's just crazy Rosasharn, getting carried away with his leading role in the horror movie Gabe and his friend Bo are making for their Gifted and Talented project.

But it's not so easy to explain some of the other curious things that start happening in Gabe's neighborhood. Why is ...
