Size: 134.05 MB

Genre: Fiction

Summary

Age range: 2-7 Years old (2-year-old; 3-year-old; 4-year-old; 5-year-old; 6-year-old; 7-year-old)

Reading level: 5-7 Years old (5-year-old; 6-year-old; 7-year-old)

* Are your kids curious about difficult concepts such as, where does rain come from? *

Avoid the dreaded barrage of "Why?" and provide an easy to understand answer based off the actual water cycle with this small adventure.

With this 33-page book:

- Capture your child's imagination with vibrant illustrations on every page.
- Learn more about the characters with our character expansion content.
- Quickly refresh your knowledge of the natural water cycle beforehand with our quick outline.

* Are your kids curious about difficult concepts such as, where does rain come from? *

This book will help you:

- Provide a unique and fun solution to your child's questions of difficult ideas like, where does rain come from.
- Connect with your kids and create an open atmosphere to help facilitate tricky discussions with them.
- Follow along with the story and pick up some unconventional tips and the secret methods -on how to explain difficult concepts to young children.

This book has been designed and tested to help keep your kids engaged and interested - to maximize their absorption, and frankly... to make story time even more fun!

Kids of different ages can enjoy this book, and will read it again and again.

There are several important themes in this book:

- Parents making time for their kids.
- Encouragement and positive reinforcement when kids share personal things like being scared.
- Listening, being patient with kids and helping them understand when it comes to things that scare them.
