## Summary

Learn the basics of wilderness navigation with veteran survival instructor Tony Nester as he covers the pragmatic skills for using a map and compass. Topics covered include: topographic map interpretation, compass use, adjusting for declination, pacing, walking a straight line over varied terrain, following a bearing, and tips on how to select a GPS unit. Complete with color photographs and home practice examples to make the skills come alive.

### [WHEN THE GRID GOES DOWN](#)

Disasters come and go each year. It is through developing a self-reliant mindset, having essential survival gear and a handful of critical skills, that you and your family will be able to prevail in an urban crisis. Jammed with field-tested information from real-world applications, survival instructor Tony Nester covers how to prepare for both short-term survival ranging from 24-72 hours as well as long-term situations resulting from a grid-down emergency or pandemic. When the Grid Goes Down ...
