How can you save the future, when someone's slowly unraveling your past?

Rae Kerrigan and her friends finally have the lives they've always wanted. Jobs, children, security, no super villains trying to destroy the world—things are about as normal as they can get for a band of superspies. But when someone jumps back into the past and starts messing with their future—everything they've worked so hard to build goes up in smoke.

To save their future, the Kerrigan gang must travel back into the past. Using her father's tatu, Rae and the others embark upon a wild time-hopping goose chase as they try to track down this latest threat before things are broken beyond repair.

Will they stop the time traveler before things are too late? Can they manage not to lose themselves in the process? More importantly...

...how far down the rabbit hole are they willing to go?
